■TDFC防洪抗旱泵车概述

TDFC防洪抗旱泵车是由离心水泵、柴油机、汽车底盘和控制系统组合而成，其移动方便、运行可靠、免安装，如果配上防护罩雨天也不怕。适用于输送清水或物理、化学性质类似于水的其它液体，被输送液体温度不宜高于50℃。广泛用于农田排灌、工业、城市给排水、专业抗洪、排涝、排积、排灌、抗旱救灾等多种场合。

■Overview of TDFC flood-drought pump vehicle

Floods-droughts pump vehicle is consist of centrifugal pump,diesel pump,car chassis and control systems,easy movement, reliable operation,no installation,rain day can match with shield. Suitable for transporting the branch water or physics and chemical properties similar to water and other liquids.Being sent liquid temperature should not be higher than 50 degrees centigrade.Widely used for irrigation, industrial and urban water supply and drainage, flood prevention, and draining, drainage and irrigation, drought disaster relief and other occasions.

■TDFC防洪抗旱泵车使用现场 ■ The Site of TDFC Flood-drought pump vehicle

固定式使用 Stationary installation

移动式使用 Mobile installation

■TDFC防洪抗旱泵车的动力选择 ■TDFC Flood-drought pump vehicle's power choice

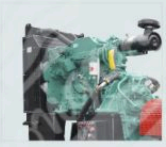

可配电动机

- 电力充足地区可选电动机
- 经济实惠

Can match electric motor

- Electricity enough area can select motor
- Economy affordable

可配柴油机

- 移动方便
- 不受电力限制
- 随时随地可以抽水、抗洪、排涝、排积、排灌、抗旱救灾

Can match diesel engine

- Mobile convenient
- No power restriction
- Anytime and anywhere can be pump fight a flood, drainage of stagnant water, drainage,Irrigation and drainage,drought relief and many other occasions

■配带柴油机水泵的可选功能:

1、发动机水温报警显示，并短信发出报警
2、发动机油压报警显示，并短信发出报警
3、发动机缺油报警显示，并短信发出报警
4、水涨时自动开机，短信发出报警
5、水降自动停机，短信发出解除警报
6、电子调速自动调速
7、自动抗洪救灾

■Optional features:

1. Engine water temperature alarm display and text message alerts
2. Engine oil pressure alarm display and text message alerts
3. Engine oil shortage alarm display and text message alerts
4. Automatically turn on when the water rises, short note alarm
5. Water will stop automatically
6. Electronic variable-speed automatic speed
7. Automatic the flood-fighting disaster relief
